

economic backwardness in historical pdf

Rare is the sophisticated course in political economy that does not assign his model of relative backwardness as a required reading. Rarer still is the doctoral student in economic history who remains uninfluenced by his beguiling hypotheses about the process of historical change within Europe since the Industrial Revolution.

Economic Backwardness in Historical Perspective - EH.net

Backwardness in Historical Perspective (1962), which focused on how relatively backward economies lacking the economic prerequisites for industrialization could compensate in different ways, and assumed that there was no variation in the desire to industrialize.

Economic Backwardness in Political Perspective

Backwardness in Historical Perspective (1962), which focused on how relatively backward economies lacking the economic prerequisites for industrialization could compensate in different ways, and assumed that there was no variation in the desire to industrialize.

Economic backwardness in political perspective

Range and flexibility characterize Alexander Gerschenkron's dynamic approach to Europe's industrial history. Connecting evolution in individual countries with their degree of economic backwardness, he presents the industrialization of the continent as a case of unity in diversity, thus offering a cogent alternative, supported by case studies, to the traditional view of industrialization as monotonous repetition of the same process from country to country.

Economic Backwardness in Historical Perspective

economic development in a straight line of reasoning.² After the Second World War, American sociologists continued the tradition of considering Europe's specific experience as the norm.

18 essays written between 1949 and 1962. The author believes focus has too often been on England and on Western Europe in analyzing economic growth, and he sets out to redress this balance, by focusing consistently on Eastern Europe and Russia. The question recurring throughout the book is what can economic history teach about the prerequisites for economic growth.

The growth in those sectors can tap into the advantage of backwardness. This economic growth creates a condition for the reform of the older sectors which is why China could stabilise and grow. A common misconception is that China owes its prosperity to exports, through some regime of export orientation.
