Best 5D BIM Estimating system. We have tried many BIM costing tools on the market and only CostOS was able to meet the demands of everyday estimating and costing, while also facilitating take-off from multiple BIM models.

Cost Estimating Software - CostOS - Nomitech

A cost estimate is the approximation of the cost of a program, project, or operation. The cost estimate is the product of the cost estimating process. The cost estimate has a single total value and may have identifiable component values.

Cost estimate - Wikipedia

Target costing is an approach to determine a product's life-cycle cost which should be sufficient to develop specified functionality and quality, while ensuring its desired profit. It involves setting a target cost by subtracting a desired profit margin from a competitive market price. A target cost is the maximum amount of cost that can be incurred on a product, however, the firm can still ...
