GE Fanuc Automation - Qualitrol

G-code (also RS-274), which has many variants, is the common name for the most widely used numerical control (NC) programming language. It is used mainly in computer-aided manufacturing to control automated machine tools.. G-code is a language in which people tell computerized machine tools how to make something. The "how" is defined by g-code instructions provided to a machine controller ...

G-code - Wikipedia

General Electric Automation and Controls division combines what was formerly known as GE Intelligent Platforms and Alstom's Power Automation and Controls.. GE Automation and Controls produce power and cooling products, distributed control systems, remote monitoring and diagnostics, and support services including the design and commissioning of pre-engineered systems.
