DATA ANALYSIS, INTERPRETATION AND PRESENTATION

Qualitative data analysis is the classification and interpretation of linguistic (or visual) material to make statements about implicit and explicit dimensions and structures of meaning-making in the material and what is represented in it.

The SAGE Handbook of Qualitative Data Analysis

In this article, it is argued for a more systematic approach during the coding and data analysis phase of qualitative research and the article concludes with a proposed model for coding and data analysis in practical theological studies.

Coding and data analysis during qualitative empirical

Effective qualitative data analysis has two primary building blocks that support emergent themes and patterns that are necessary for developing performance metrics: (a) encoding the data and (b) developing memos that are related to the encoded data (Lofland, 1995).
