Getting Real â€” a must read for anyone building a web app. Getting Real is packed with keep-it-simple insights, contrarian points of view, and unconventional approaches to software design. This isn't a technical book or a design tutorial, it's a book of ideas. Anyone working on a web app - including entrepreneurs, designers, programmers, executives, or marketers - will find value and ...

### **Getting Real: The smarter, faster, easier way to build a**

In computer science, real-time computing (RTC), or reactive computing describes hardware and software systems subject to a "real-time constraint", for example from event to system response. Real-time programs must guarantee response within specified time constraints, often referred to as "deadlines". The correctness of these types of systems depends on their temporal aspects as well as their ...

It clearly takes a village to write the book Real-Time Rendering. Ola Olsson pointed out this entertaining bit on Google Scholar:. The fourth edition appears to be Volume 19 Issue 2. The article mentioned does exist, but is the very last reference in the book (#1978). The number of authors on the paper is impressive, quite an increase from the original three for this article.
