Virtually every aspect of self-deception, including its definition and paradigmatic cases, is a matter of controversy among philosophers. Minimally, self-deception involves a person who seems to acquire and maintain some false belief in the teeth of evidence to the contrary as a consequence of some motivation, and who may display behavior suggesting some awareness of the truth.

One thing I do for Philosophy Talk as a member of the Crack Research Team is pre-interview each guest. The point is to give the guest an idea of the structure of the upcoming show – the “story arc” – and to make notes on what the guest thinks to pass on to John and Ken. Last week I spoke with Walter Sinnott-Armstrong about moral dilemmas.

morality becomes unconditional commands, e.g. of a God (Â§194-5). Ressentiment is a reactive rather than creative attitude towards the world, focusing on others, rather than oneself. It tends to produce self-deception â€” the slave morality must cover its origins carefully, not least because it disapproves of the very motives, of envy,
