Platform screen doors (PSDs) and platform edge doors (PEDs) at train or subway stations separate the platform from the train. They are a relatively new addition to many metro systems around the world, some having been retrofitted to established systems.

### **Platform screen doors - Wikipedia**

Serving Those Who Serve Vermont. The Department of Buildings and General Services exists primarily to provide the facilities and services required for all state agencies and departments to accomplish their missions.

### **Home Page | Buildings and General Services**

A railway platform is an area alongside a railway track providing convenient access to trains. Almost all stations have some form of platform, with larger stations having multiple platforms. The world's longest station platform is at Gorakhpur Junction in India at 1,355.40 metres. The Appalachian Trail station in the United States, at the other extreme, has a platform which is only long enough ...
