Science, technology, and innovation (STI) have the power to transform societies by providing solutions on how to eradicate poverty, improve social and economic conditions, increase resilience to natural hazards, and preserve natural resources for future generations.

Science Policy | United Nations Educational, Scientific

The presence of liquid water at the base of the martian polar caps was first hypothesized more than 30 years ago and has been inconclusively debated ever since. Radio echo sounding (RES) is a suitable technique to resolve this dispute, because low-frequency radars have been used extensively and successfully to detect liquid water at the bottom of terrestrial polar ice sheets.

Radar evidence of subglacial liquid water on Mars | Science

Journal of Water Resources and Ocean Science (WROS) is an international journal whose aim is to achieve the advancement and dissemination of information in the field of water resources and ocean science. The journal is committed to the publication of original research articles, reviews and notes on all fields of water resources and oceanography including physical oceanography, biological ...
