International standards. There are several international standards-setting bodies in the field of workflow management: Workflow Management Coalition; World Wide Web Consortium; Organization for the Advancement of Structured Information Standards; WS-BPEL 2.0 (integration-centric) and WS-BPEL4People (human task-centric) published by OASIS Standards Body.

### **Workflow management system - Wikipedia**

A workflow management system (WfMS) is a software system for setting up, performing, and monitoring of a defined sequence of processes and tasks, with the broad goals of increasing productivity, reducing costs, becoming more agile, and improving information exchange within an organization. These systems may be process-centric or data-centric, and they may represent the workflow as graphical maps.
